Jessie James M. Bote

BSIT STUDENT · BUKIDNON, PHILIPPINES

jamesjessiemodesto@gmail.com · github.com/DeltaRhoSygnis · jessiejamesportfolio.vercel.app

PROFILE

I build small, careful things for the web: a graded C practice platform where a language model explains but never decides, and a portfolio written by hand in HTML, CSS, and JavaScript. I care about the boring parts — reproducible builds, accessible markup, and code that still makes sense six months later.

PROJECTS

cpractice — AI-assisted C practice platform — python · fastapi
FastAPI, Pydantic, SQLite, pytest. The model explains; a validated test suite decides.

bsit_codes — BSIT coursework compilation — c · c++ · python
Exercises and notes from my degree, kept in one public repository.

godot-cpp — GDExtension demo for an IT presentation — c++ · godot
Godot and C++ scene tree, with the running game beside it.

portfolio — This site — hand-written — html · css · js
Static HTML, CSS, and JavaScript with a GitHub Actions contribution graph. Deployed on Vercel.

CERTIFICATIONS

2026 — Prompt Like an Engineer
Cisco Networking Academy · issued Sep 2026 · verifiable on Credly

2026 — Python Essentials 1
Cisco Networking Academy / OpenEDG Python Institute · issued Oct 2026

2026 — HTML Essentials
Cisco Networking Academy / JS Institute · issued Oct 2026

EDUCATION

now — BS Information Technology
Bukidnon State University — coursework in programming, data structures, and networks.

CURRENTLY

now — CS50x — Harvard
Introduction to computer science: C, algorithms, data structures, Python, and the web.

now — Ethical Hacking — Cisco NetAcad
Network security fundamentals, in progress.

TOOLS

C · C++ · PYTHON · FASTAPI · SQLITE · PYTEST · HTML · CSS · JAVASCRIPT · GIT
GITHUB ACTIONS · LINUX · GODOT
